WINGS FLIGHT TRAINING *RecTrac*

The Wings **RecTrac** is designed for those who want to fly either recreationally or professionally but require more flexibility in their individual training. This course will take the student from zero time (no flight experience at all) to either a commercial certificate (allows the pilot to be paid to fly), certified flight instructor - CFI (allows the pilot to teach others to fly), certified flight instructor instrument - CFII (allows the pilot to instruct in the clouds). This program (from zero to instrument instructor). *This is a more self-paced program and can be divided into individual Ratings to meet the student's individual needs.*

Here is a summary of the timeline and the costs for each certificate:

Private Pilot[1]		Instrument		Hour Building		Commercial		CFI		CFII		TOTAL
15,773.55		11,451.50		17,500.00		8,791.50		6,579.00		2,667.50		**$62,763.05**

---

[1] Private Pilot costs will vary more than other ratings will because each student learns at a different pace. {*See Scenarios*} Prices subject to change. Other Fees may apply under certain Financing Programs.
