

WINGS FLIGHT TRAINING *RecTrac*
With Part 141 Option

The Wings ***RecTrac*** is designed for those who want to fly professionally for a living. It is an accelerated, intense, and efficient course that will take the student from zero time (no flight experience at all) to either a commercial certificate (allows the pilot to be paid to fly), certified flight instructor - CFI (allows the pilot to teach others to fly), certified flight instructor instrument - CFII (allows the pilot to instruct in the clouds). This program (from zero to instrument instructor). This is a more self-paced program and can be divided into individual Ratings to meet the student's individual needs.

Here is a summary of the timeline and the costs for each certificate:

Private	Instrument	Hour	Commercial	CFI	CFII	TOTAL
